2. Products & Operations

The featured product is a professional cordless leaf blower set. It is promoted as portable, efficient, lightweight, and suitable for a variety of daily cleaning scenarios. Product pages and marketing materials may include the following features and specifications:

- 500W brushless copper motor design, with motor speed stated as up to 32,000 RPM.
- Cordless operation with two 18V 3000mAh lithium-ion batteries included.
- Adjustable airflow / speed control for different cleaning tasks.
- Approximate charging time: 60-90 minutes; advertised runtime: up to 40 minutes depending on usage conditions.
- Lightweight set design, advertised total weight around 1.4 kg.
- Complete set includes main unit, 2 batteries, charger, extension tube, and dust bag.
- Typical application scenarios: leaves, patios, driveways, workshop dust, DIY cleaning, and light snow/winter use.

Orders are confirmed through the sales channel and fulfilled according to stock availability and destination. Shipments are handed to logistics carriers and tracking is provided where available. Customer support, including order updates, returns, refunds, and product-use inquiries, is handled via email in line with standard B2C retail practices.

We do not offer financial services, payment processing services, or third-party fund handling. Payments are received for retail goods only.

3. Fulfillment & Funds Flow (B2C)

A simplified operational loop for B2C cordless leaf blower orders:

- Customer places order -> payment confirmed
- Order is reviewed and confirmed through the online sales channel
- Inventory / warehouse team prepares the main unit and accessories
- Picking and packing -> parcel handed to logistics carrier
- Tracking details are provided where available
- Customer receives goods
- After-sales support -> return, replacement, or refund if applicable

Supporting documents may include:

- Order confirmation / receipt
- Invoice information where applicable
- Shipping proof / tracking details
- Customer communication records for support or returns
- Product photos and specification materials where relevant

Use of funds: customer payments are used for inventory procurement, warehousing and fulfillment costs, shipping/logistics fees, customer service, product packaging, and routine business operating expenses. Refunds, where applicable, are processed according to the relevant sales-channel policies and applicable consumer rules.

Contact for verification: please email youwenzhang2025@outlook.com with the institution name and required document type; we can provide reasonable supporting evidence depending on context.
